Dear Friends

Our Known World Dance Symposium is just a week away and I know you are all just as excited and busy as I am finishing up last minute travel plans and work commitments so that you can have the time off. Here are just a few reminders as to what to bring and some updates and details to do worth registration and parking.

Yay dancing!

your room keys and you can deal with the rest in the morning.

## How does the parking work?

When you arrive, go into the parking lot and take the little card the machine spits out at you. When you get to registration you will be given a "chit" which will go in and out of the machine and allow you unlimited access to the parking lots for your specified length of stay.

Parking lot E is closest to where the conference events will be happening (note the university changed the lot names so some of the earlier lot specifications may be different)

## Don't Forget :

- Your membership card - non members will be charged \$3 CND at the gate
- A print out of your invoice, this will be immensely helpful at registration.
- Your passport (if you are traveling from out of country)

## Class Interest Survey

I have created a survey of all the classes. If you can take a few minutes and fill it in it will give us a better idea of what classes not to schedule against each other.
